Polarity Definition

From:

Customer

To: Magnetic Component Engineering, Inc.

We wish to notify Magnetic Component Engineering, Inc. on the convention we use at our facility.

_____ We follow the same convention as the NBS.

_____ We consider the “North” pole to be that which will ATTRACT the north-seeking pole of a magnetic compass.

This confirms that I have read “About Polarity” on your website and understand the different ways of designating polarity.

All shipments made to our organization must comply with the above designated polarity convention.

Additionally, this also confirms that I have the authority to make this change for our organization.

Company Name: _____

Your Name: _____
